Motiwala's Cough Pills possess very extraordinary demulcent, expectorant and balsamic properties and may be freely given to infants and old persons. Motiwala's Cough Pills are entirely free from mercurial and other deleterious preparations. Motiwala's Cough Pills have been certified by Medical and numerous other respectable gentlemen as being very efficacious in the above disorders.

Motiwala's Pills come as a blessing to the Asthmatic and the Consumptive. They require a trial which only costs FOUR ANNAS.

For further particulars and CERTIFICATES OF CURES EFFECTED see handbills which accompany the phials and which may also be had of the Manufacturer and his agents.

Sold in Phials at 4 annas, 6 annas, and 10 annas each, by Messrs. H. E. Motion & Co., No. 13, Medow Street, and all respectable vendors of medicines in all parts of Bombay and the principal Stations in the Bombay Presidency.

Manufactured—S. H. MOTIWALA, Pyere Road, Fort, Bombay.

In addition to the certificates that have already appeared, a few are selected and given below.

The pills have been tried by the members of my family and have been invariably found to produce the desired effect. The cheapness of the article places it within the reach of the poor

K. M. SHROFF,
Honorary Secretary, Bombay Branch of the National Indian Association of London.

Motiwala's Cough Pills were recommended by me to my friend who was suffering from an obstinate attack of Cough. He was cured of his troublesome cough in a few days. He also tried these pills on other members of his family suffering from a similar complaint, who also got rid of their coughs in a short time. * * *

SHAMRAO BHASKAR,
Justice of the Peace.

D. B. MONTALA, Esq.

I have tried your pills in a case of a severe cough and also of severe pains in the side and am glad to say that they have cured me of the cough and have relieved me greatly of the pains in my side. * * *

M. CARNEY,
Wife of Mr. Carney, Engine-Driver G. I. P. Railway.

"Mr. Motiwala," says the *Daily Telegraph*, "has given to the public his celebrated vegetable Cough Pills and Dysentery mixture, both very valuable medicines, as testified by certificates from numerous respectable gentlemen. * * * The efficacy of these medicines has created a very large demand for them."

SHERIFF'S PROCLAMATION.

IN THE HIGH COURT OF JUDICATURE AT BOMBAY.
ORDINARY ORIGINAL CIVIL JURISDICTION.
SUIT No. 626 OF 1877.

LOOMBA LALLA, KHOOBHAI PREMA, WALLA PUNNA, LUCHHA LALLA, and BHOOTA OOMA, all of Bombay, Marwadi inhabitants, carrying on business in partnership as Grocers under the Name, Style and Firm of LOOMBA LALLA and COMPANY in house No. 1, in Bonapore Lane, outside the Fort of Bombay.....Plaintiffs.

vs.

GOVERDHUN DAMODHUR, of Bombay, Hindoo merchant, residing in house No. 27, situate in Withulwady, outside the Fort, the heir and legal personal representative of CHUTTOORBHOJ GOVERDHUN.....Defendant.

WHEREAS by an ORDER made in the above suit on the 17th day of March, 1879, it was ordered that the Defendant, GOVERDHUN DAMODHUR, should pay to Mr. JEMSETJEE CURSETJEE CAMA the sum of Rupees one thousand eight hundred and fifty-nine and annas fifteen, and that in default execution should issue for the same and also for the costs of and incidental to the said application and order.

And whereas under and by virtue of warrant of attachment of immoveable property, dated the 16th day of May, 1879, the sheriff of Bombay attached the following land and premises:—that is to say, all that piece or parcel of land or ground (partly Pucca and partly Government) with the messuage, tenement and dwelling house standing thereon, situate, lying and being in Withulwady, fronting on the south side thereof, in the sub-district of Mandvie, in the Island of Bombay, which said piece of land contains by admeasurement 253 square yards and 8-9 of a square yard or thereabouts, and which said house is assessed by Collector of Assessment under No. 27, and is bounded as follows:—that is to say, on or towards the east partly by the Withulwady Cross Lane and partly by the property belonging to Shreemuljee Maharaj, on or towards the west partly by the said Withulwady Street and partly by a sweeper's passage and the property formerly of Mahomed Mahareb, but now of Marwadi Loomba Lalla and others, on or towards the north by the public street known as the Withulwady Street, and on or towards the south by the property of Bhai Jeevan Purbhan.

The revenue payable to Government is annas 15 per annum.

And whereas default has been made by the Defendant in payment of the sum by the said Order of the 17th March, 1879, ordered to be paid as aforesaid.

NOW IT IS HEREBY PROCLAIMED AND NOTIFIED that on SATURDAY, the 10th day of January, 1880, at the hour of 4 o'clock in the afternoon, the Sheriff of Bombay will, under and by virtue of a warrant of sale dated the 2nd day of July, 1879, put up FOR SALE by PUBLIC AUCTION on the premises to the highest bidder, and without reserve, the right, title and interest of the said Defendant in the said lands and premises or in so much thereof as may be necessary for the satisfaction of the said decree.

The following is a list of the rights, charges and claims to which the said lands and premises are supposed to be liable.

(I). A claim made by the Municipal Collector and Assessor for Rupees 55-12-10 on account of consolidated H. and Water taxes for the 2nd half of 1879 in respect of house No. 27, Withulwady Lane.

(II). A claim by one Dayal Bhimjee under a decree of the High Court of Bombay, dated the 24th day of June, 1879, made in Suit 329 of 1879, wherein the said Dayal Bhimjee was Plaintiff and the said Goverdhun Damodhur was Defendant, whereby it was ordered that the said Defendant, Goverdhun Damodhur, should, on or before the 24th day of December, 1879, pay to the said claimant the sum of Rupees 1,600 for debt and interest thereon at the rate of 10½ per cent. per annum, from the 9th day of December, 1877, till payment and the costs of the said suit when taxed, and in default of the said Defendant paying to the said claimant such principal, interest and costs as aforesaid, the said sum aforesaid, it was further ordered that the above-mentioned premises should be sold by the Commissioner for Taking Accounts by public auction, and that the money to arise by such sale (after deducting thereout all costs, charges and expenses) or so much thereof as might be sufficient should be duly applied in or towards payment of what should be due to the said claimant for such principal, interest and costs as aforesaid.

Intimation is given that the court does not warrant the correctness of the above description of the premises, nor the title of the said Defendant to the same or to any interest therein.

Should the said Defendant have no saleable interest whatever in any lot to be sold in accordance with this Proclamation, any sum paid by the purchaser by way of full or part payment for the same will be repayable to the purchaser.

Of the price of each lot one-fourth shall be paid forthwith when the lot is knocked down to a purchaser, the remainder of the purchase money must be paid in each case by the purchaser to the Sheriff on or before the fifteenth day after the sale.

The sale will not become absolute until confirmed by the Court.

In default of payment in whole or in part as above prescribed, any sum paid as deposit will be forfeited to the Government and the lot will be sold free from any interest therein or in the proceeds thereof of the prior purchaser.

For further information and conditions of sale application should be made at the office of the Sheriff.—Dated this 6th day of December, 1879.

ATMARAM PANDURANG,
Sheriff of Bombay.

COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, 6TH DEC. 1879.

We have had another very cheerful week in business, and so far the early anticipation of a good season are being fully verified. With the one exception perhaps of Coals, a large business at advancing prices has been doing in Imports of all kinds, but more especially in Piece Goods and Yarns, and it seems probable that this will rather increase than diminish as the season advances if the fever prevailing throughout Gujerat and the North-West being a considerable check on the demand at the moment. In Exports, nothing but the absence of supplies prevents a large trade; as for all the leading staples a very active enquiry exists. This is specially the case in Cotton, respecting which the Home advices latterly have been of such an exciting character, that had new crop been coming in at all freely large shipments would have been pushed forward. As it is, both Hingunghaut and Omrawuttee are turning out neither so early nor so good a crop as was previously anticipated. The damage done by the October rains has been rather more than was generally believed, and latterly some slight additional damage is reported from frost. Taken all round, however, we see every reason to think that the ultimate out-turn will be a full average yield, and in addition up-country advices justify us in anticipating large supplies of Wheat and Seeds.

Money.—Somewhat against general expectations the last published return of the Bank of Bombay showed an increase of upwards of 19 lacs in the Cash Balance arising from a falling off in the demand for accommodation. There has accordingly been no change made in the Bank's rate of discount which still stands at 5 per cent., nor to all appearance will any movement in that direction occur for some weeks to come. For the time being the activity in imports as against the comparatively limited extent of exports is all in favour of easier money, moreover the action of the Banks in laying down funds in anticipation of the shipping season will also for a time encourage the same tendency. Soon after the turn of the year, however, funds will begin to move up-country against produce, and unless present crop estimates are enormously ahead of the mark, the requirements will be sufficiently large to render dear money highly probable.

Exchange.—Owing to large shipments of Silver from Venice to this port, and the announcement received by wire that the President of the United States, in his annual message to Congress, had urged the suspension of Silver coinage, Sterling rates have been very unsettled this week, and comparatively little business has been done. The market for this Mail opened on Tuesday morning, on the basis of 1s. 8 7-16d. for demand Bank and 1s. 8 11-16d. for 3 months' Credit bills, but owing to the causes already mentioned an immediate decline of 1-16d. was established, which was followed by a further partial decline of 1-32d. on Wednesday. Council drafts having only brought 1s. 8¼d., rates on Thursday opened weak with a fall of 3-32d. to ⅛d., but steadier advices coming from Calcutta a recovery of 1-32d. took place; only to be followed, however, by a drop of 1-16d. again on Friday. To-day the tendency has been slightly steadier again with rather more paper offering, and a partial advance of 1-32d. has to be recorded, making closing quotations:—Bank Bills on demand 1s. 8 9-32d.; 3 months' sight 1s. 8 13-32d.; Credits, 3 months' 1s. 8¼d. to 1 17-32d.; Documents, 3 months' 1s. 8 9-16d. per Rupee.

During the early part of the week, a considerable business was done in Bank Bills, but latterly the lower rates ruling have induced more desire to sell. At the existing level the Banks, however, are by no means anxious to buy for forward, and while only naming an advance of 1-16d. per rupee per month as their own Bills, quote 1s. 8¼d. for 3 months' Credits, March delivery, as against 1s. 8 9-16d. for January. This represents pretty fairly the general idea entertained regarding the probable course of the market. At the moment, and for the next month to come, with an active import business doing and comparatively limited exports, 40 lacs of Council drafts per week and large importations of Silver, there are no good grounds for rate ruling much, of anything higher than they are at present, but from the end of January onwards export requirements will rapidly increase and Exchange may be expected to advance in sympathy. Once Cotton does begin to come forward at all in fact, it will come with a rush, and as early as February we expect to see shipments assuming an important scale; for while Dharwattee, not being particularly early, will then be arriving freely; both Broach and Dhollera will probably also be available.

Bar Silver in London, which in the beginning of the week stood at 53 1-16d. per oz., declined to 52¾d. in sympathy with the reduced price obtained for Council drafts, but has since recovered to 52 13-16d., equivalent to about 1s. 8¼d. per Rupee.

On Calcutta, the business reported during the week has not been large, and demand drafts are still quoted at 1-16 per cent premium, 60 days' sight at ½ per cent discount. On China the nominal quotation 60 days' sight Mercantile drafts is Rs. 217 per 100 dollars. From Hong Kong the latest quotation by wire for 4 months' sight Bank Bills on London is 3s. 9¾d. per dollar and from Shanghai 5s. 2¾d. per tael.

Government Securities.—Owing to the decline in Exchange Government Paper has throughout ruled very quiet, only a limited business has been done, and prices on the week must be quoted ¼ lower, say:—Four, Rs. 102½; Four-and-a-half, Rs. 101¾ to ¾.

Shares.—The market throughout has been very steady, but transactions have not been extensive. In *Bank* shares Agra are Rs. 3 higher at Rs. 124, National Rs. 1 lower at Rs. 104. Bank of Bombay have advanced 2½ per cent on the week, closing at Rs. 690; the sale of the property mortgaged to the Bank by Kesowjee Naik has, it is said, having turned attention to the shares. In *Land* Companies the only movement is a decline of Rs. 50 in Colaba. In *Press* shares we notice a decline of Rs. 90 in Apollo and Rs. 10 in Colaba, but there is a rise of Rs. 10 in Mofussil, Rs. 25 in Dhollera Press Company and Rs. 50 in East India. *Spinning and Weaving* Mill shares have been less firmly held of late, owing to the advance which has taken place in the value of Cotton unaccompanied by any proportionate improvement in Yarns or Goods. There is an advance of Rs. 10 in Khandesh and Madras United, Rs. 16 in Manockjee Petit, and Rs. 25 in Alliance; but on the other hand there is a decline of Rs. 5 in Bombay United and Empress, Rs. 10 in Alfred Manufacturing, Dhurrumsey and Morarjee Goculdass, Rs. 15 in Great Eastern, Jewraj Balloo and Oriental, and Rs. 20 per share in Khutao Muccoonjee. Amongst *Miscellaneous* companies Treacher and Co., Limited, are Rs. 5 lower.

Piece Goods.—With a further rise in prices in Manchester and a decline in Sterling Exchange, actual transactions to arrive have again been comparatively small; but in the bazaar there has been the most active demand we have seen for some considerable time, the clearances being estimated at from 3,500 to 4,000 packages per week. Stocks are now being reduced to a very small compass, and for the leading descriptions of Greys and fine make of Bleached Goods an advance of one and a half annas per piece has been established, with every prospect of a further rise following, as with small supplies on hand dealers are not likely to continue sellers in the face of arising market at Home unless at rates at which they can replace.

The shipment of Cloths from the U. K. during the month of February, show comparatively moderate figures for Bombay, 28,650,000 yards of plain Cotton, but for Calcutta 63,450,000 yards a very full supply.

The clearances of *Grey Goods* this week have been particularly heavy, especially of 39 inch, and prices are As. 1 to As. 1½ per piece higher. Stocks are now moderate and holders very firm, the demand is also active at an advance of As. ½ to As. 1 per piece. Wider makes show an upward tendency also, but are not quotably dearer. Printers are firm but not active at quite previous prices. In Madapollams a fair business is doing at an advance of As. ½ per piece. T Cloths meet a much better enquiry but not so fat as any higher rates. Jaconets are in good request at an improvement of As. ½ per piece; but in Mulls, although they are pretty firmly held, there is no quotable alteration. Of Dhoties the clearances have been large at gradually hardening prices. *Bleached* goods, although not so active as Greys, have nevertheless been in improved demand throughout, and in most cases sales have been effected at an advance of As. ½ to As. 1 per piece. For *Dyed and Printed* Cloths the enquiry is improving, and to some extent the same may be said of *Turkey Reds*, but we cannot yet quote any actual rises in values. For *Local* made Clothe a very free enquiry has prevailed, resulting in sales of about 2,000 packages, but prices though firm are no dearer.

Twist.—An active demand resulting in a large business has been done in English Yarns this week, and the market closes firm with only moderate supplies at an advance of ½ anna in Mule and ¼ annas per lb. in Water and most kinds of Dyed Yarns. For *Local* Spinnings a very strong demand has been experienced, but so far the mills have only been able to obtain a very partial advance of ¼ anna per lb. The production, however, is not in excess of current requirements, so that with higher prices for Cotton they will probably be able to set-block a further rise in Yarns.

Metals.—*Copper*.—The rise in prices at Home, coupled with the fall in Exchange, has induced a considerable speculative demand this week, and prices have further advanced As. 4 to As. 8 per cwt. In Yellow Metal similar advance has taken place in Sheets only, but stocks are small and the tone firm. For *Iron*, the enquiry though fair, has not been particularly active, but a moderate business has resulted at an advance of As. 8 to As. 12 per cwt.

Coals.—The transactions on the spot have been confined to a few retail transactions, at in most cases a decline of about As. 8 per Rupee, and to arrive the market has been depressed by the anxiety shown to sell steamer cargoes to arrive, especially of Cardiff and Dawson's West Hartley. Of the latter a December January sailing steamer cargo has been retailed at Rs. 20 to Rs. 19½ per ton alongside, and there are still sellers, but no buyers at the latter rate.

Cotton.—In sympathy with the tenor of the Liverpool telegrams, the market during the week remained quiet but steady at unchanged prices, but on Thursday afternoon the previous day's telegrams from New York induced a rise of Rs. 2 to Rs. 3 per candy, followed on Friday by a further advance of Rs. 6 to Rs. 7. To-day the market has been quiter with a partial decline of Re. 1 to Rs. 2, which, however, has been recovered at night in the bazaar. Transactions have not been so large as the excited state of the market would have warranted, the stock of Old Cotton being small, whilst sellers of New Cotton have shown no disposition to contract forward, especially for early delivery. Of Old Crop the purchases are estimated at about 3,000 bales, consisting of about equal proportions for Export and local consumption, and of new Crop for Export at about 7,000 bales.

The *Receipts* to date show the following comparisons:—

	1879	1878	1877
For the Week	7,023	5,143	7,176
Since 1st Sept.	8,926	46,387	46,663
Since 1st January	846,696	904,783	10,31,802

The *Clearances for Sea* since the departure of last mail have been 5,893 bales, making a total of 640,161 since 1st January, against 733,580 bales for the corresponding period last year.

New Crop.—The accounts from the Berars and Central Provinces are by no means so favourable as they were. The late October rains have apparently done more damage than was at first supposed, and in some parts of the Omrawuttee districts the plants have been slightly damaged this week by the cold weather. Supplies of both growth are only coming very slowly, and until after the turn of the year, when the Jowari harvest will be over, it is evident we are not likely to see arrivals of importance. Of what is coming in of Omrawuttee the quality is very poor, the bulk only running about Good Fair, and it is very evident that very little "Good" will be available for this month's shipment and not much for January. Respecting Broach, the reports on the whole are satisfactory, but it looks like being the middle of January before sample parcels will be available, and February before any extent of ready business will be practicable. The Dhollera Crop reports are still very favourable, as also are the accounts from Compta and Dharwar, and notwithstanding the less favourable advices regarding Broach, the reports on the whole are satisfactory, but it looks like being the middle of January before sample parcels will be available, and February before any extent of ready business will be practicable. The Dhollera Crop reports are still very favourable, as also are the accounts from Compta and Dharwar, and notwithstanding the less favourable advices regarding Broach, the reports on the whole are still justified in expecting exports of 700,000 to 750,000 bales for the first six months of the coming year, of which a much larger proportion will be shipped before the end of March than was the case last season.

The following are to-day's quotations for Fully-ginned Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, with commission:—

We subjoin our usual weekly comparison of the statistical position with the corresponding date of the past two years. The visible supply has increased 30,000 bales during the week, but of this only 22,000 bales have been added to the stock in Liverpool. The available supply of Surats continues to decline, the stock in Liverpool being again diminished by 5,000 bales, making 46,000 against 67,760 bales held at this time last year.

	1879.	1878.	1877.
Total supply of all kinds	1,930,000	1,806,120	1,826,990
,, ,, ,, Surats	233,000	218,920	151,110
For the U. K. only the figures are:—			
Stock in Liverpool	339,000	329,250	312,190
,, London	54,000	33,470	17,390
American Afloat	320,000	248,000	224,000
E. Indian ,,	34,000	63,000	20,000
Total	747,000	672,720	573,580
Price of Mid. Orleans	7 3/16d.	5 9/16d.	6¾d.
,, Fair Dhollera	5 9/16d.	4 3/16d.	5 7/16d.
Difference	1¾d.	1¾d.	1 5/16d.

For the first time since the middle of September the total receipts for the week prove to be slightly under the corresponding week of last year, and it is not at all unlikely that for some weeks to come we may see a steady falling off in the figures. It is in this expectation, doubtless, that prices are being pushed up so rapidly, but bearing in mind that the receipts to date are 407,000 bales ahead of last year, it is difficult to believe that the total crop will not ultimately prove greater than last:—

	1879.	1878.	1877.
Week's Receipts	218,000	220,000	178,000
,, Exports to U K	76,000	87,000	59,000
,, ,, to Continent	60,000	100,000	40,000
Total Receipts since 1st Sept	2,348,600	1,942,000	1,681,000
,, Export to U. K. ,,	857,000	634,000	452,900
,, ,, Continent ,,	372,600	414,000	265,500

Seeds.—*Linseed*.—The demand continues very active, and prices are partially As. 1 higher at Rs. 7-1 to Rs. 7-3 per cwt., supplies being light. *Rapeseed* is quite out of request, and we have not heard of any business having been done for Export for some time past. We quote Cawnpur R. 6 to Rs. 6-4; Gujerat Rs. 6-4 to Rs. 6-7 per cwt. *Gingelly* continues in active demand, and notwithstanding full supplies, prices are rather higher again, say Rs. 41 to Rs. 41½ per candy for Mixed, Rs. 42½ to Rs. 43 for White. The Khandesh crop is turning out very well, but from the Berars reports are unfavourable.

Wheat.—The demand is very slack, but there is, nevertheless, sufficient buying to keep up prices in the face of the very limited supplies now coming forward, and we still quote:—Best White, Rs. 40½ to Rs. 41½; No. 2, Rs. 38 to Rs. 39½ per candy.

LATEST INTELLIGENCE.

(FROM OUR OWN CORRESPONDENTS.)

ITEMS FROM KABUL.

KABUL, DEC. 6.

Two days ago, Hussein Mahomed, half-brother of Wali Mahomed, who was preceding his brother to Turkistan, was killed at Maidan. Wali Mahomed was to have started yesterday for Turkistan, but it is now very doubtful whether he will proceed.

Yakub Khan should reach Peshawur on the 9th inst. All arrangements for warm clothing are now practically completed, as also the huts for the native troops, which have been run up. Stable accommodation for baggage animals is also now in hand. The troops will keep open the Jugdalak route, holding the Luttabund Kotal till the snow falls, the Pioneers having already made twenty miles of excellent road. Three dead elephants on the Kotal make it almost impassable from the stench.

The nights are much warmer than they were a fortnight ago, and there is no sickness, while full supplies for five months, excepting fodder, have been stored.

Many absurd rumours have been flying about concerning the gathering of Kohistanis; but no event of any importance has occurred during the past fortnight.

A silver jug with the following inscription has been found:—"Presented to Sirdar Nek Mahomed for faithful services to the Russian Government, 1879." Sirdar Nek Mahomed commanded at Charasiab.

THE EX-AMIR.

JALLALABAD, DEC. 4.

Yakub Khan arrived here at 2·35 p.m. today, escorted by two squadrons of the 6th Carabineers, under command of Lieutenant-Colonel Fryer. On his arrival he immediately entered the tent prepared for him, pitched in the horn work on the south side of the Jallalabad fort. He is accompanied by a few attendants.

JALLALABAD, DEC. 5.

Yakub Khan left at 6 o'clock this morning under the same escort of Carabineers and four companies of the 51st Light Infantry, who proceeded to Ali Boghan yesterday evening to reinforce the escort there, and march with it to Barikab. No demonstration on the part of the inhabitants has occurred, nor is any anticipated. Yakub Khan was strongly guarded during his stay here, sentries being posted all round his tent, and all ingress and egress to the horn work prohibited. He looked tired and fatigued, probably from the effects of his long ride from Gandamak.

MR. GLADSTONE AT GLASGOW.

LONDON, DEC. 6.

Mr. Gladstone yesterday addressed a meeting of 6,000 people at Glasgow, at which much enthusiasm was displayed. In a speech made by the right honourable gentleman on the occasion he vehemently condemned the whole Indian policy of the Government, and notably referred to the Arms and Vernacular Press Acts, and the misapplication of famine funds. He denounced the war with Afghanistan as iniquitous and dastardly, and said that the only results which could accrue therefrom would be waste of public money, embarrassment, and the hastening of a conflict with Russia.

SATURDAY, the 13th inst., is now spoken of as the probable date of Sir R. Temple's return to Bombay.

WE learn that H. M. man-of-war, the Euryalus, has received orders to hold herself in readiness before the 15th instant. The order seems to be quite unexpected, as the Naval Commander-in-Chief, Admiral Jones, had made arrangements for a prolonged stay in Bombay. No one as yet seems to know the exact destination to which the flag-ship is to be despatched, and some anxiety has been consequently caused. It is surmised, however, that she will proceed to Burma, where political complications have for some time been rife, in regard to which the Indian Government has been in correspondence with the English Cabinet through the Secretary of State for India.

RAO SAHEB Gunputrao Morobs Pitale, Assistan Registrar and Librarian of the University of Bombay, has done good service to the cause of education by publishing in a pamphlet form the University matriculation examination papers, collected for the last twenty years, that is, from the time of the establishment of the University in this Presidency, the period embraced being from 1859 to 1878. There are seventeen such pamphlets, each containing papers relating to a certain subject—elementary history and geography, arithmetic, natural sciences, &c. Mr. Pitale is well fitted for editing these papers; and both, candidates for the matriculation examination and examiners themselves, ought to be grateful to him for the aid which they will undoubtedly derive from them. These papers are published with the permission of the Syndicate.

WE are informed that it has been decided not to have a Camp at Khandalla this year, as many of the members have accepted invitations to the Baroda festivities. It has been determined, however, to have a Camp out on the 27th inst., at Bhandup and Vehar. Mr. Bhandupwalla has very generously placed his large bungalow and grounds at the disposal of the Volunteers for the occasion. It is intended, we believe, to organise a sham fight near Vehar, which is two-and-a-half miles from Bhandup. The Quartermaster of the Regiment is to make all commissariat arrangements.

PEOPLE will be looking out with interest to hear something about the working of the Deccan Ryots Act. But the measure, though law at this moment, has not yet come practically into operation. The Bombay Government is maturing its plans, and will bring the new Act practically into operation from the 1st of next month, if possible.

THE Secretary to the Chamber of Commerce favours us with the following telegram, reporting on the state of the cotton crop in the Berars, from the Commissioner H. A. D., dated Amraoti, 6th inst., circulated for the information of the members of the Chamber:—"Cotton picking going on, but the out-turn is somewhat disappointing."

IN drawing attention to the enactments of the Indian Factories, Bill, the *Pioneer* says:—On Saturday the Bombay millowners held their yearly meeting and discussed the proposed Act. The Hon'ble Mr. Morarjee Gooculdass made a speech. "At such a time as this," he said, "one would have expected the Government to support the interests of the cotton mill industry, and to do nothing to blight its prospects." Instead of this, the Hon'ble Mr. Gooculdass went on to say—"We are to have a Boiler Inspection Act and a Factory Act, all of which together are more or less designed to hamper the industry and act as a sort of encouragement to the Manchesterians." The Government, as we have already explained, has taken measures, which had unfortunately become only too needful to secure the essentials of health to mill hands, and to protect helpless children from the avaracious cruelty of irresponsible employers, and this is described with as little elegance as truth, as "encouragement to the Manchesterians." It speaks well for Mr. Colvin's Bill that such faults should be found with it, for this kind of criticism goes far to prove its necessity. We cannot stay to note the other fallacies of the Hon'ble Mr. Gooculdass's oration. The Millowners' Association, of which he is a member, is about to inflict on the Government a memorial about the Factory Bill.

MUCH snow is said to have fallen in the neighbourhood of Kabul, and many baggage animals, elephants, camels, and bullocks, are said to have perished on the road to Peshawur. Firewood is said to be sold at fifteen seers for a rupee in the capital. The road to Turkistan is reported closed by snow.

THE Nagas defeated at Konoma have again taken up a strong position, and in view to the occurrence of a series of assaults of the kind, in which the 44th have displayed great gallantry at the price of heavy loss, it is suggested that steps should be taken to have the force strengthened by another Goorkha regiment or two.

DR. DEFABECK has been for some time engaged in conjunction with Major Jacob, the Executive Engineer in Jaypore, in collecting materials for a large work on architectural and decorative art in Rajputana and the adjacent districts. Some 200 drawings of great interest have already been collected. Dr. DeFabeck went home by a recent mail, with the intention of taking good advice in England as to the best way of bringing out the book, in which the Viceroy is said to take much interest, having accepted its dedication to himself.

THE Burmans of Moulmein have got their local police into disrepute. The Chief Commissioner of British Burma accuses that department of inefficiency to cope with the extensive smuggling of opium and other contraband drugs in the Moulmein district. Finding the district officials also unsuccessful in dealing with the evil, the administration has specially detailed a *head constable* to watch the progress of the illicit trade. The Government has, however, considerately notified the fact of this head constable's appointment to watch the immorality of Moulmein, so that it is doubtful whether, as the Chief Commissioner is sanguine, "good results" will ensue, or perhaps, after the result of this experiment is known, the Chief Commissioner will find it necessary to work the Moulmein excise department on the same principles that now obtain in Rangoon, where the town magistrate is excise officer, and thus has many facilities for administering the department.

THE prevalence of scurvy among the men of the 30th Regiment M. N. I., at present stationed at Vitakri, has increased to such an extent that Dr. Archdall, the medical officer of the corps, has strongly recommended that the regiment be sent back to Southern India.

THE accounts of the state of the crops in Bengal are good from all quarters. *Amun* is being reaped with a good average outturn in some places, as at Dinagepore a full sixteen anna crop having been obtained. In Behar, too, the *aghani* promises an excellent outturn. In Orissa, however, there has been no rain, and the rice on unirrigated lands has been partially damaged. The public health is good on the whole, except in Chittagong, where a severe outbreak of cholera has followed the cyclone. Jute is backward in Julpigoree.

THE Upper India Paper Mill Company (Limited) has ordered out from England machinery on a considerable scale, and the capital subscribed already amounts to more than three lakhs of rupees.

THE Inspector General of Ordnance and Magazines has received instructions to supply at once the Raja of Pittapur with two hundred muzzle-loading carbines, with two thousand rounds of ball ammunition, to be used, if necessity arises, against the Rumpa insurgents.

INFORMATION comes to us through a Persian correspondent that the ex-Amir's troops in Balkh disobeyed the orders of their commander, Gholam Hyder Khan, and marched to Charikar where they tendered their submission to the British authorities. General Roberts ordered them to give up their arms and go to their homes, and they have accordingly dispersed.

THE annual meeting of the Behar Landholders, Association was held at Sonepur on the 1st inst. The Maharaja of Darbhanga, the Maharaja of Hatwa, the Manager of the Dumraon Raj, the representative of the Maharaja of Bettia, and many zemindars were present. The Maharaja of Darbhanga presided. The annual report was read and confirmed when it was unanimously resolved that a subscription list be opened and the proceeds be applied to the relief of the widows and orphans of the soldiers killed in the Afghan war, also to the purchase of comforts for the troops, sick and wounded. Sixty-one thousand rupees were subscribed on the spot. It was also resolved to present a congratulatory address to the Government on the success of its military operations in Afghanistan.

THE Indian Government sent Mr. R. Cross to New Granada for the purpose of bringing to England, for eventual transmission to India, plants of the species of Cinchona yielding the "soft Columbian" and "hard Carthagena" barks of commerce. The last report of the Director of Kew Gardens tells us that Mr. Cross arrived in England in March of last year with five Wardian cases, containing 400 plants of the former and 200 of the latter. With regard to the soft Columbian, known as "Calisaya of Santa Fé," Mr. Howard reported that the bark analysed, which was taken from the rejected cane-like shoots brought home by Mr. Cross, "was of the very best description, and such as indicates the probability of a much larger production of alkaloid in the bark of more mature and developed trees." This bark yielded 6·24 per cent. of alkaloids, of which 3·25 per cent. was quinine, and 1·90 was cinchonidine. Mr. Howard considers that "if the young plants can be safely conveyed to India, and established there, it may not improbably prove second to none."

SIR M. HICKS-BEECH at Birmingham declared he had "tried to unite our colonies to us by the bonds which are the true ties of empire, bonds which we should all endeavour to *promote*." This is as bad as Lord Castlereagh's famous "I will not now enter on the fundamental feature on which the question hinges," or the announcement of the *Morning Post* that "the mask has been stripped from the cloven hoof of faction."

LORD GRANTLEY married lately Miss K. MacVickers, a young American lady, who has acquired fame from her beauty. It is curious how many American girls marry Englishmen. This is because they know how to make themselves pleasant. English girls are, as a rule, either too gushing and talkative, or have nothing to say for themselves. American girls unite the tact and *savoir vivre* of Frenchwomen with the solid qualities of the Anglo-Saxon race. They know how to set off their natural advantages with dress, and they are almost always philosophically good-tempered.

A CORRESPONDENT sends *Truth* the following exact version of the epitaph that was written upon Mr. Lowe in the House of Commons, together with Mr. Lowe's translation of it into Latin:—

Here lie the bones of Robert Lowe,
A faithless friend and bitter foe;
Whither his restless soul has fled
Cannot be thought of, much less said.
If to the realms of peace and love,
Concord no longer reigns above:
If it has found a lower level,
All must compassionate the devil.

Robertus humilis hic jacet,
Qui nobis (mortuus) valde placet,
Amicus minime fidelis,
Amarus lentis et crudelis.
Quænam conditio sit futura
Ambigitur, sed spero, dura.
Si cœlum scandet ista pestis,
Vale, concordia cœlestis.
Si apud inferos jacebit,
Diabolum ejus pœnitebit,
Et nos Diaboli miserebit.

599-79—Bhaishunker and—Munsookhbhoy Bhagoobhoy and Mr. Graham, in seconding the motion, said there were several objections to the measure which struck him very forcibly. In the first place he did not see why this £240,000 defecit should be made up by a tax which would bring in a larger revenue. The tax was really a mingled income tax, and a tax which fell in a very objectionable way on a few classes, and which ignored altogether the great property holders of the country, whose income was derived from Government paper and sources of that description. The tax was not a proposal which fell to merchants, that virtually it would ultimately fall on the native traders, who would be at the mercy of the very arbitrary powers held by the collector. The publication of the incomes would also be very objectionable, but the most objectionable thing of all about the tax was that it was not put before them to consider at the very time when a great financial blunder had been perpetrated.

At this point it was suggested that the discussion on the memorials should be adjourned as the hour was late. Ultimately the meeting was adjourned until Tuesday.

Mr. Kittredge gave notice that at the adjourned meeting he should move:—"That if Government cannot expect to receive the required revenue from a licence tax under which the community divided into a few classes, pays more or less according to any fixed standard, it commends that Government withdraw this proposed Trades and Professions Tax Bill and bring in a bill for the imposition of an Income Tax of 1½ per cent."

BOMBAY CHAMBER OF COMMERCE.

At the meeting of the Chamber of Commerce on Friday afternoon, after the speech of the Hon'ble M. Mowat, the president, in moving the adoption of the scheme for the erection of the members of the committee by ballot,

Mr. Mathew said—I have pleasure, Sir, in seconding the resolution which you have proposed for the adoption of rules as regards future elections and which have already been approved of by the Committee of the Chamber. Whilst it is proposed that the merchants of Bombay shall have a majority on the committee it is proposed to allow as heretofore of the election of representatives of other interests which are closely associated with commerce. With a committee so constituted our late experience, I think, warrants the expectation that this Chamber may have before it a career of useful and growing influence such as it may fairly claim as representing not only a most influential and respectable section of the community, but the one which is best informed on commercial matters, and may, in this land of "services," well claim to be the most independent class of British subjects. Associated as this Chamber is with the Chambers of Commerce of England and India, and supported as it is by a free Press, it occupies a position in this land of taxation without representation in which it may render much service to Government and the country. The Government would be indeed unwise which would not seek advice from a body so constituted, and which in India must necessarily be a loyal adherent and supporter of the State. In this matter we have not any reason to complain of any want of wisdom on the part of Government, as both the Governments of Bombay and India have not only for sometime frequently consulted this Chamber, but the Government of Bombay has acceded to the Chamber representatives on the local Legislative Council, on the Municipal Corporation, the Town Council, and on the Port Trust, and we may, I think, well look forward to similar services being asked for the direction of State railways—an arrangement which could not fail to benefit the trade of the country. I do not, however, concur with my friend, the Honourable Mr. Mowat, in thinking that Government will soon acquire all the guaranteed railways or that the Chamber's assistance will be needed in their regard. It is to be remembered that the guaranteed lines have the advantage of being under the control of home boards of directors whose knowledge and experience of business has a beneficial effect upon the management. In other matters besides railways, the Chamber, I submit, may also do much good by advising and assisting Government, and it may be at times by resisting with a strong moral power too eager or hasty proceedings of the Legislative Department. It may also continue its efforts to obtain the removal of inland transit duties and to hasten the improvement of the means of transit by land or water, and it may supply to Bombay and Western India the place which many kindred institutions occupy at home. Gentlemen, with these observations I beg to recommend the proposals which I have the honour to second for your approval and acceptance.

Mr. Kittredge said, when the question of the election of the committee was brought up about a month ago, it struck him for the moment favourably, but, of course, there was not much time then for reflection.

Mr. Bryce asked whether it would not be better to discuss the scheme, paragraph by paragraph, instead of discussing it, as a whole, as Mr. Kittredge was doing.

A long discussion ensued on the point, and ultimately it was decided to adopt Mr. Bryce's suggestion.

The chairman, therefore, moved, and Mr. Mathew seconded the adoption of the first paragraph of the draft scheme, which ran thus:—"The committee shall consist of seven members, one of whom shall hold the office of chairman and another that of deputy chairman. They shall be elected by ballot."

Mr. Lynch, continuing his remarks, said that since the meeting at which the question of election by ballot was mooted, he had given the matter consideration, and had come to the conclusion that it was very doubtful if the ballot scheme would work. He should, therefore, propose, as an amendment, to the chairman's motion, that the paragraph should run thus:—"The committee shall consist of seven members, one of whom shall hold the office of chairman, and another that of deputy chairman, the two latter officials to be elected by ballot." His objection to the project of electing the committee by ballot was that he did not think it was feasible. For instance, suppose they took a ballot with their present number and that there should be a considerable consensus of opinion as to which gentlemen would make the best committee; and that there should be 40 balls thrown, and that of these 30 to 35 should be given for those men whom they all thought would make the best committee, and suppose that five out of the seven should say they had too much to do and could not serve under the rules of the Chamber, the selection would fall upon the other eight members who would be their committee. Could they say that these men, who had only received one or two balls a piece, had been elected by the Chamber? If they took a precaution against this, which he thought they must do; if they put in a provision that the chairman should receive a certain proportion of the votes, that the deputy chairman should receive a certain proportion of the votes, and that the members of the committee should receive a certain proportion, he did not think that they would find that the difficulty had been overcome, for they would have to elect over and over again before they obtained their committee. It seemed to him that the old system had worked well: the past history of the Chamber proved that; but, at the same time, he thought they ought to have a more direct interest than they at present had, in the representation of the Chamber. He thought they would get this without giving the selection of the whole committee to the whole body. They could get that interest by electing their chief officers—those who represented them most before the public—their chairman and deputy chairman; and if they elected these two officers, and allowed the old committee in conjunction with the chairman and deputy chairman so elected to elect the remaining five members of the new committee, he thought they would find the plan to work well. He thought the scheme would work better than the proposed scheme for the election of the whole of the members by ballot. There would be no difficulty, because they could easily elect their chairman and deputy chairman. While confining the right of voting in getting together seven men, all of whom would be willing to serve. He thought it would be far better not to make too great a change at first, much as they would like the ballot, and confine themselve generally to the election of the two officers, and allow them with the committee to elect the new members. When they came to consider the different qualifications required for the committee he thought they would see that a small body of men could discuss the matter much better than a large constituency, and they would get their interests better represented than if the committee was elected by ballot. By the latter system the committee might represent their interests, but, in consequence of the unwillingness or refusal of half a dozen men to serve they might get a committee, all the members of which represented one interest.

Mr. Bryce said he felt disposed to second Mr. Kittredge's amendment, because he thought that the difficulties he had pointed out would be sure to occur. He thought that, on the whole, the amendment which had been proposed met the difficulty. He should like to ask the chairman whether the scheme before them was the suggestion of the committee, or of himself and Mr. Mathew.

The chairman said the proposition was his own, but it had been submitted to the committee and discussed by them, clause by clause, and approved.

Mr. Bryce thought it was desirable that this should there some times.

The chairman—I think it is stated in my letter.

Mr. Forrest said the scheme was not approved by all the committee. Some of the members, himself included, objected to it, but it was thought at the time desirable, as some members of the Chamber seemed desirous of having a scheme for election by ballot, that such a scheme should be brought forward, and for that reason the present scheme had been criticised and accepted. He certainly spoke for himself, and believed he spoke for one or two others, when he said that the scheme of election by ballot did not meet with the approval of all of the members of the committee. For his own part he should certainly vote for Mr. Kittredge's amendment. He believed that the chairman himself did not believe that the scheme for election by ballot was the right thing for the Chamber, and that you introduced it because he believed it was the wish of the Chamber that such a system should be introduced. He (Mr. Forrest) certainly thought that Mr. Kittredge's scheme was the best for the Chamber, because he believed that the interests of the Chamber would be better secured if the committee was elected by the previous committee, aided as the members of the Chamber by the chairman and deputy chairman elected by the Chamber.

Mr. Cairns thought that Mr. Kittredge's scheme was no improvement on the scheme as present in vogue. Mr. Kittredge still held to the opinion that a small body of the Chamber was the fittest to elect the new committee. This was what the Chamber had already expressed its opinion upon, that the small body entrusted with the election of the committee greatly cost smaller, until the selection of the committeemen in the hands of one or two members.

Mr. Kittredge—When did the Chamber express this opinion?

Mr. Cairns—At the last meeting, on the election by ballot.

Mr. Kittredge—Never. We have never expressed an opinion upon that.

Mr. Forrest—I think you will find that yourself and Mr. Tait were the only members who expressed any opinion of the kind.

Mr. Cairns—At the last meeting, on the election by ballot.

Mr. Kittredge—Never. We have never expressed an opinion upon that.

Mr. Forrest—I think you will find that yourself and Mr. Tait were the only members who expressed any opinion of the kind.

Mr. Cairns—And Cassumbhoy is my relative. (Witness was examined at great length regarding his private affairs with a view to discredit him).

Mr. Rustomjee Kaikhosroo said.—I am a clerk in the East India Bank and have made an affidavit in this case. The contents of it are true.

To Mr. Gill.—I have been sitting in court during the trial.

Elias M. DeSilva, a clerk of the Oriental Bank, produced a slip regarding a cheque for Rs. 16,000 credited to N. A. Wadia. It was dated 28th September, 1877, and drawn on the Bank of Bombay by the Collector of Bombay.

Mr. Lyng put in one or two documents and closed the case on behalf of the liquidators.

Mr. Gill then summed up on behalf of the petitioner. He said he would rely on section 157 of Act 10 of 1866. The *gravamen* of the charge made in the petition was that the liquidators shared with Nusserwanjee Wadia the moneys he received from Kessowjee Naik; and the learned counsel contended that the evidence for the petitioner substantiated the suspicions he had expressed. The liquidators' own admission that they were aware of the letter of Messrs. Macfarlane and Gilbert, and yet took no step regarding it, showed that they had notably failed in their duty as trustees. It was a narrow comprehension of their duty that they only looked to the truth of the allegation the very persons who were the culprits, the giver and the receiver of the moneys, Kessowjee Naik and Nusserwanjee Wadia. As to the affidavit of Dharsey Hemraj, the learned counsel remarked that Mr. Kapadia was in a position, as liquidator of the Masgaon Company, to verify the statements made by Dharsey, and yet failed to show any vigilance in the discharge of the duties which he and his co-liquidator were bound to exercise. It was admitted that Messrs. Macfarlane and Gilbert's letter to N. A. Wadia was shown by a clerk of Messrs. Hearn, Cleveland, and Little to Mr. Kapadia, and the fact that the liquidators took no step whatever regarding it pointed to a lack of zeal on their part or to a community of interests with Mr. Wadia. It must have far too low for the maximum figure to be subjected to taxation, and he agreed with them. He, therefore, proposed to insert after "Rs. 10,000 per annum," the words "or such other sum as to your Excellency may seem expedient."

Mr. Graham, in seconding the motion, said there were several objections to the measure which struck him very forcibly. In the first place he did not see why this £240,000 defecit should be made up by a tax which would bring in a larger revenue. The tax was really a mingled income tax, and a tax which fell in a very objectionable way on a few classes, and which ignored altogether the great property holders of the country, whose income was derived from Government paper and sources of that description. THE
WILHELM'S QUELLE:
ONE OF THE MOST RENOWNED SPRINGS
OF
NATURAL EFFERVESCENT MINERAL WATER,
SITUATED AT
KRONTHAL,
NEAR
FRANKFORT-ON-THE-MAINE.

[Extract from *Naval and Military Gazette*, March 26th, 1870.]

Among the many natural mineral waters that have of late years come into vogue, our attention has been called to water called the Wilhelm's Quelle, from a spring situated in the Taunus, near Frankforte-on-the-Maine.

It is highly recommended by several eminent medical men, Dr. Quain, Mr. spencer Wells, and Sir George Burrows speaking very favourably of it.

HOTELS.

ALEXANDRA HOTEL AND PINTO'S HOTEL MATHERAN.

MR. J. C. PINTO, the Proprietor of the both Hotels, begs to inform the Public that the above Hotels are now OPEN to VISITORS. There are seven separate Bungalows attached to the Hotels well adapted for Families, for whose comfort every care is taken. The Hotels are well situated, occupy a central position, and are therefore very conveniently placed within the reach of several POINTS. They are also nearest to the Station and in a breezy locality under the shade of large trees, which diminish the glare and keep the extensive compound always fresh and cool.
